DESINFECT SEAT CLEANER - WC-SITZ-HYGIENE

Suitable for every environment. Whether in the office, schools, doctors' offices or clinics, in industrial companies, workshops or hotels. The DESINFECT SEAT CLEANER can be optimally used in any environment. Simple and easy to use. Personal hygiene wherever you need it.

DISPOSABLE DISPENSER WITH ADDE VALUE

The shapely design dispenser offers for the first time a disposable system, with easy exchangeable consumables, in the toilet area.

WORTHY & PRACTICAL

With **DESINFECT SEAT CLEANER** you save time and money. With around 2,000 dosing applications per liter, the dispenser is far more productive than traditional models. In addition, the cartridges are easily and quickly exchangeable.

INSTALLATION

Also in terms of user friendliness scores the donor. Complicated refilling is completely eliminated. Thanks to the modular system, replacement and installation are easy with just a few handles. A wall plate with control unit, lock and key complete the sophisticated concept.

DESINFECT SEAT CLEANER comes as a ready to use solution. Completely wet the WC seats to be disinfected with product. A removal of disinfectant residues can be dispensed with. Any remaining product residues are harmless from a toxicological point of view.
